

TURN TO BRISTAN

FOR THE UK'S NUMBER ONE IN TAPS AND SHOWERS

# PRODUCT BENEFITS EXPLAINED

## SAFE TOUCH

Designed to keep the exterior cool to the touch, ensuring you're never at risk of scalding.

## DIGITAL SHOWER

Has sophisticated technology, greater functionality, and/or smart features.

## PRECISE GLIDE

Features ceramic cartridges for long life durability and more precise control.

## SECURE FIX

Comes with metal fixings to secure your tap in place, so it won't move or rotate during use.

## EASY FIT INSTALLATION

Designed to make installation quicker and easier.

## MATCHING TAPS/SHOWER

Matching taps and showers are available.

## 1 OUTLET

One shower outlet.

## 2 OUTLETS, 1 ON

Two shower outlets, which only run separately.

## 2 OUTLETS, 2 ON

Two shower outlets, which can both run at once.

## 3 OUTLETS, 2 ON

Three shower outlets, two of which can run at the same time.

## DECOR SMART

Will use existing holes and fixings to fit in the same spot as your previous shower.

## LUMINANCE CHROME

A hard-wearing, flawless finish that lasts for years. It's also scratch resistant and salt spray tested to ensure added durability.

## FAMILY SAFE

Thermostatic temperature control and automatic stops prevent surges of hot or cold water.

## RUB CLEAN

There's no need to scrub. Limescale build-up can be easily wiped off the nozzles of this shower product.

## QUICK CHANGE

To change this product for something else, simply turn off the water supply and remove.

## ECO-FRIENDLY

This shower saves as much water as possible (but it doesn't feel like it).

## REJUVENATING

This shower uses a medium amount of water - just enough for a powerful, rejuvenating flow.

## DRENCHING

This shower fully soaks you with water for the most indulgent showering experience.

## ANTI-LIMESCALE

Reduces build up and helps extend product life.

## THERMOSAFE

Thermostatic feature avoids temperature changes when water is used elsewhere in your home.

**BRISTAN**

# EASY CHOICE. HARD TO BEAT.

At Bristan, we find brilliantly simple ways to make life easier for every customer. Creating taps, showers, sinks and accessories that fit perfectly into your needs, your lifestyle and your budget. Making sure that our products are consistently easy to choose, install and use. And providing complete

confidence with technical support and advice to help you find the right solution at the right time.

Whether you need a single tap or a hundred, you can trust Bristan to give you quality without complexity.

It's why we're Britain's number one.

# KEY PRODUCT BENEFITS

At Britan we're always looking for ways to make things easier for you. That's why we have created icons to highlight the benefits of our products and make them easier to shop.

## LUMINANCE CHROME

A hard-wearing, flawless finish that lasts for years. It's also scratch resistant and salt spray tested to ensure added durability.

## PRECISE GLIDE

Features ceramic cartridges for long life durability and more precise control.

## EASY FIT INSTALLATION

Designed to make installation quicker and easier.

## SECURE FIX

Comes with metal fixings to secure your tap in place, so it won't move or rotate during use.

**FAMILY SAFE**

Thermostatic temperature control and automatic stops prevent surges of hot or cold water.

**RUB CLEAN**

There's no need to scrub. Limescale build-up can be easily wiped off the nozzles of this shower product.

**SAFE TOUCH**

Designed to keep the exterior cool to the touch, ensuring you're never at risk of scalding.

These icons highlight how many water outlets the shower has, and how many can be on at the same time.

## JUST GOT EASIER

### Kitchen Sinks

With our unique Easyfit tap base system already pre-installed, you can make more time for other jobs - or simply finish faster.

see page 142

### Kitchen Taps

## AS EASY AS 1,2,3...

1 Slot the Easyfit base into the sink, insert the hot inlet connector and fix to the sink.

2 Attach the flexi tails and isolators to the existing water supply.

3 Push the tap body on and tighten both grub screws to finish.

See page 112

## Bar Shower Fixing Kit

### WALLMOUNT 12

The simplest solution for installing, maintaining and replacing bar showers.

- Front of wall isolation valves
- Award winning design
- Exclusively available on Bristan bar showers

# 1901

## Bathroom Taps and Showers

### 1901

Timeless 1901 is one of our longest established ranges, characterised by simple shapes and subtle, traditional touches that work perfectly in any bathroom.

## Why choose an electric shower?

### Hot water on demand - no matter what

Fed from your cold water mains-feed rather than a hot water cylinder, electric showers are the economical option as water is heated as you need it through an integral heater in the shower unit. This means you can always have a hot shower no matter how busy your bathroom is or even if your boiler breaks.

All of our electric showers are simple to fit with multiple water and cable points to make replacement easy.

## JOY CARE

Thermostatic Electric Shower

**Joy Care, a BEAB Care and RNIB (Royal National Institute of Blind People) endorsed shower from Brisbane**, takes into account the needs of the elderly and people with disabilities, without compromising on style or performance. Designed for all family use, these showers won't look out of place in any bathroom setting.

What makes Joy Care different is not only safety and ease of use but the inclusion of unique features such as an LED digital setting readout and warm up mode.

Our Joy Care shower is both stylish and practical for those who have different showering requirements.

Additional features such as a phased shutdown helps to reduce limescale build up which in turn extends the life of the shower. Coupled with thermostatic technology for ultimate water temperature consistency, (regardless of water being used elsewhere in the home) Joy Care is the perfect shower for ultimate user safety.

# JOY CARE THERMOSTATIC

## Electric Showers

### JOY CARE THERMOSTATIC

#### Thermostatic Electric Showers

- Comfortable, safe showering; the thermostatic feature avoids temperature changes when water is used elsewhere in your home
- Audible clicks and beeps denote setting changes, raised markings and larger fonts for ease of use
- Maximum temperature setting and automatic shutdown feature can be adjusted to suit during installation
- Warm up mode; set your temperature and once reached the on/off button stops flashing; no more cold starts! Illuminated on/off button indicates powered and ready for use

- Anti-limescale feature reduces build up and rub-clean handset helps extend product life
- Digital display for precise temperature setting
- Perfect replacement shower; multiple water/cable entry points for easier compatibility
- Easy to clean and maintain; external filter helps maintain performance
- Large soap dish with retractable hooks for product storage

- 15mm push-fit inlet connection
- Available in 8.5kW and 9.5kW power ratings @240V
- Draws water directly from mains supply, at working pressures between 0.5 bar and 10 bar
- Note: to meet the BEAB Care Mark a minimum operating pressure of 1.0 bar is required
- Require a drainage pump? We recommend the Whale Instant Match Varispeed with an external flow sensor

## choosing your shower booster pumps

The chart below supplies all the information required to allow you to select your Bristan Booster Pump. Pumps are rated in bar pressure, one bar pressure is equal to raising your cold water tank/cistern by 10 metres above its current position, so a 2.0 bar twin Bristan pump is the equivalent to raising your tank/cistern 20 metres above its current position. This will create a high pressure shower.

Pump Type	STPUMP15TN	STPUMP20TN	STPUMP20SG	ST NHPUMP 18TN
Performance - Boost	Medium Boost	High Boost	High Boost	High Boost
Maximum Pressure / Flow Litres / Min	1.5 bar / 32 LPM	2.0 bar / 35 LPM	2.0 bar / 17 LPM	1.8 bar / 33 LPM
System Friendly - Peripheral Impeller	Twin	Twin	Single	Twin
Application - Single Shower / Mixer tap	•	•		
Application - Outlet Pump on Shower system or to boost individual Taps			•	
Fully Automatic Flow Switch Control	0.8 LPM sensitivity	0.8 LPM sensitivity	0.8 LPM sensitivity	0.8 LPM sensitivity
Motor - Powerful Induction Motor	385 Watts	420 Watts	215 Watts	440 Watts
Motor Rating @ 9 litres / minute	30 minutes (S3)	30 minutes (S3)	30 minutes (S3)	30 minutes (S3)
Power Supply - 230/1/50	•	•	•	•
Motor supplied with Anti Vibration Feet	•	•	•	•
Factory pre - wired	•	•	•	•
Fuse Rating	5 Amps	5 Amps	5 Amps	5 Amps
Plumbing - Supplied c/w Flexible Hoses G3/4 x 15 mm push - fit connection	4 off	4 off	2 off	4 off
Maximum Static Inlet Pressure (metres)	10 M	10 M	10 M	6 M
Suitable for connection to tank fed Hot / Cold Gravity Supplies ONLY	•	•	•	Universal negative head
2 year Guarantee	•	•	•	•
WRAS Compliant suitable for Potable Water	•	•	•	•
CE Marked meets all current Standards	•	•	•	•
100% Factory tested	•	•	•	•
Low Noise	•	•	•	•

### Pump Selection

When selecting a pump, first check to see if the tap / shower to be pumped is designed for a low pressure or high pressure system. If designed for low pressure select our Medium Pressure 1.5 bar pump, however if it's designed for high pressure select our High Pressure 2.0 bar pump.

### Twin Pumps

Twin pumps are designed to be installed between the cold water tank / cistern and the hot water cylinder so that they boost the water supply into the shower or tap.

### Single Pumps

Single pumps can be used with a shower; the pump being installed to the mixer outlet, pumping the blended hot & cold water away from the shower valve and up to the shower head.

Single pumps can also be used to boost individual hot and cold tank fed water supplies to individual taps.

### Controls

Bristan pumps are fitted with flow switches; these automatically start the pump once the flow from the shower / tap to be pumped exceeds 0.8 litres per minute. If your system has not got this minimum flow, contact Bristan for advice prior to purchase.

### Pump Location

Bristan pumps are designed to be most effective pushing water, for this reason our preferred pump location is on the floor next to the hot water cylinder.

### Hot & Cold Water Storage

Ensure that your Hot water cylinder & Cold water tank / cistern have sufficient capacity to meet the pumped demand.

### Connections to the water supply

#### Cold Water Supply:

The pump must be supplied with a dedicated feed direct from the cold water storage tank / cistern.

#### Hot Water Supply:

The pump must be supplied with a dedicated feed direct from the hot water cylinder.

Connection using a Stuart Turner cylinder flange or factory fitted secondary tapping if fitting, or alternatively it can be the first draw off from the underside of the open-vent. Hot water should not exceed 65 degrees C entering the pump and must be free of air. Both hot and cold supply pipes should be fitted with full flow service valves to aid maintenance (not supplied)

Under no circumstances should the pump be connected either directly or indirectly to the cold water mains supply.

### Electrical connection

The pump must be installed by a competent person to all relevant IEE Wiring Regulation (BS7671) and should be wired directly to a double pole fused spur, complying with BS 1363-4 and protected with a 5 Amp fuse.

Full fitting instructions are supplied with every Bristan Pump. These should be followed carefully.

Installed correctly your Bristan pump will give years of reliable service.

## Easy as 1, 2, 3

Our sinks come pre-installed with our Easyfit tap base, flexible tails and a choice of Easyfit taps.

1

Fit your chosen sink using the fitting instructions.

2

Attach the pre-fitted flexi tails and isolators to the existing water supply.

3

Push the tap body on and tighten both grub screws to finish.

R 1/2 SL	£43.00
R 3/4 SL	£48.50

## OUTLET FLOW REGULATORS

Flow regulators can easily be retro fitted between a mixer body/shower valve **outlet** connection and the shower hose. However, please note for **TMV2 approved products fitted on a combi boiler heating system**, it is recommended that flow regulators are fitted between the mixer body and **both shower valve inlet connections**. This will ensure the valves performance is maintained, especially during the winter months, when the incoming water temperature is lower.

### OUTLET FLOW REGULATORS

### OUTLET FLOW REGULATORS

CODE	TYPE	PRICE
ECO SHW 04	4 litres per minute	£9.80 ** Grey
ECO SHW 05	5 litres per minute	£9.80 ** Yellow

ECO SHW 14	14 litres per minute	£9.80 Pink

\*\*Not suitable for use where products are fitted on a Combi system  
Please contact customer service on 0844 7016273 for details on inlet flow regulators.

# FLOW REGULATORS

Accessories

## FLOW REGULATORS & AERATORS - TAPS

### FITTING A FLOW REGULATOR TO THE TAIL OF A TAP

#### Step One

The flow regulator will fit into the inlet of the tap.

#### Step Two

Carefully push the flow regulator into the inlet of the tap.

#### Step Three

Connect the pipework to the tap in the usual way.

### FITTING AN AERATOR / SPRAY REGULATOR TO A TAP SPOUT

#### Step One

Carefully remove the existing flow straightener.

#### Step Two

Screw the new flow regulating aerator into place.

#### Step Three

Carefully tighten into the tap using a suitable spanner.

# ZING

## Essential

### ZING

The bestselling Zing range is accessible and affordable, yet packed with features like temperature override and cool-touch chrome that keep your family safe.

- Cold water feed surrounds the hot water to ensure the valve is safe to touch by all the family
- Rub clean handset
- Supplied with our wallmount 10 fixing kit for easier retro installation. (ZI SHXSMCTFF C only)

**Fast Fit Connections**  
6.7 L/min

**Standard Connections**  
6.7 L/min

CODE	TYPE	Min. Press.	PRICE
ZI SHXSMCTFF C	Bar Valve with Fast Fit Connections	0.2 bar	£112.95
ZI SHXSMCT C	Bar Valve with Standard Connections	0.2 bar	£95.75

## CHEER

### Electric Showers

- Single function rub-clean anti-limescale handset
- Multiple water/electrical cable entry points and adjustable riser rail fixing brackets, ideal for replacing an existing electric shower
- Versatile footprint, covers most manufacturers fixing holes

A

- 15mm push-fit inlet connection
- Available in 8.5kW and 9.5kW power ratings @240V
- Draws water directly from mains supply, at working pressures between 0.7 bar and 10 bar

CODE	TYPE	PRICE
CHE85 W	8.5kW Electric Shower	£105.00
CHE95 W	9.5kW Electric Shower	£105.00

SOLO-NMT LL	Basin Mixer	0.5 bar	£235.00

### TMV3 Mono Basin Mixer with Short Lever Handle (no waste)

- Complies with HTM04-01
- Above basin access to serviceable parts, limiting down time
- Supplied with copper tails

CODE	TYPE	Min. Press.	PRICE
SOLO2-T3SL	Basin Mixer	0.2 bar	£375.00

### TMV3 Mono Basin Mixer with Long Lever Handle (no waste)

- Complies with HTM04-01
- Above basin access to serviceable parts, limiting down time
- Supplied with copper tails

CODE	TYPE	Min. Press.	PRICE
SOLO2-T3LL	Basin Mixer	0.2 bar	£375.00

### Single Control Deck Mounted Basin Mixer

- Complies with HTM04-01
- Integral flush system assists against infection
- 1-step isolation and filter removal

CODE	TYPE	Min. Press.	PRICE
<b>H64DMT2</b>	Basin Mixer	0.2 bar	<b>£495.00</b>

### Single Control Wall Mounted Basin Mixer

- Complies with HTM04-01
- Integral flush system assists against infection
- 1-step isolation and filter removal

CODE	TYPE	Min. Press.	PRICE
<b>H64WMT2</b>	Basin Mixer	0.2 bar	<b>£495.00</b>

### Timed Flow Temperature Control Basin Mixer

- Timed shut off to meet BS EN 816
- Max temperature limiter (adjustable) for user safety
- Vandal resistant 'release to activate' mechanism

CODE	TYPE	Min. Press.	PRICE
<b>Z TC 1/2 C</b>	Basin Mixer	1.0 bar	<b>£365.00</b>

### Cross Head Basin Taps

- Metal fixing nuts for added durability
- Supplied as a pair

CODE	TYPE	Min. Press.	PRICE
<b>VTX 1/2 C</b>	Basin Taps	0.2 bar	<b>£145.00</b>

### Single Toggle Lever Basin Tap (with flow regulator)

- Approx. 15 second shut off
- Supplied with both hot and cold indices
- Supplied with 6 L/min flow regulator fitted

CODE	TYPE	Min. Press.	PRICE
<b>Z L 1/2 C</b>	Single Toggle Lever Basin Tap	0.2 bar	<b>£90.50</b>

### Single Tall Soft Touch Timed Flow Tap (with flow regulator)

- Timed shut off to meet BS EN 816
- Soft touch easy to use mechanism
- Supplied with 5L/min flow regulator

CODE	TYPE	Min. Press.	PRICE
Z2 TBV 1/2 C	Timed Flow Tap	0.2 bar	£139.00

### Single Luxury Soft Touch Timed Flow Tap (with flow regulator)

- Timed shut off to meet BS EN 816
- Soft touch easy to use mechanism
- Supplied with 5L/min flow regulator

CODE	TYPE	Min. Press.	PRICE
Z2 LUX 1/2 C	Timed Flow Tap	0.5 bar	£69.95

### Single Pillar Basin Soft Touch Timed Flow Tap (with flow regulator)

- Timed shut off to meet BS EN 816
- Soft touch easy to use mechanism
- Supplied with 5L/min flow regulator

CODE	TYPE	Min. Press.	PRICE
Z2 DUS 1/2 C	Timed Flow Tap	0.5 bar	£66.75

### Single Basin Soft Touch Timed Flow Tap (with flow regulator)

- Timed shut off to meet BS EN 816
- Soft touch easy to use mechanism
- Supplied with 5L/min flow regulator

CODE	TYPE	Min. Press.	PRICE
Z2 1/2 C	Timed Flow Tap	0.5 bar	£59.25

### Value Non Concussive Basin Taps

- Timed shut off to meet BS EN 816
- Soft touch easy to use mechanism

CODE	TYPE	Min. Press.	PRICE
VA NC 1/2 C	Timed Flow Taps	0.2 bar	£75.00

### Single Soft Touch Timed Flow Bib Tap (with flow regulator)

- Timed shut off to meet BS EN 816
- Soft touch easy to use mechanism
- Supplied with 5L/min flow regulator

CODE	TYPE	Min. Press.	PRICE
<b>Z2 BIB C</b>	Timed Flow Tap	0.5 bar	<b>£63.50</b>

### Infrared Automatic Swan Basin Spout

- Non-touch control, using Infrared sensing technology, supports infection control measures
- Mains or battery powered
- Automatic switch off supports water saving

CODE	TYPE	Min. Press.	PRICE
<b>IRBS1-CP</b>	Basin Spout	1.0 bar	<b>£269.00</b>

### Infrared Automatic Basin Spout

- Non-touch control, using Infrared sensing technology, supports infection control measures
- Mains or battery powered
- IRBS2-CP not suitable for fitting to metallic sinks or troughs

CODE	TYPE	Min. Press.	PRICE
<b>IRBS2-CP</b>	Basin Spout	1.0 bar	<b>£279.00</b>

### Infrared Automatic Swan Basin Spout

- Non-touch control, using Infrared sensing technology, supports infection control measures
- Mains or battery powered
- Also available in Brushed Nickel finish

CODE	TYPE	Min. Press.	PRICE
<b>IRBS3-CP</b>	Basin Spout	1.0 bar	<b>£300.00</b>
