 on Multipanel Wall Panels

About Grant Westfield – The UK's Best Selling Bathroom Wall Panels

Create beautiful spaces with our waterproof bathroom wall panels, the luxurious and modern way to decorate your bathroom.

Our beautiful wall panel collections come in a range of sizes and finishes, including marble, stone and wood, offering you a range of design possibilities, allowing you to reinvent your bathroom in a style that is uniquely yours.

Our unique Hydrolock installation system makes it possible to join panels from our Tile, Pure, Linda Barker, Contemporary and Classic Collections together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for grout, meaning less time cleaning grout lines and mould. Panels in our Multipanel Classic Collection are also Forest Stewardship Council® (FSC® C128180) and Made In Britain certified, meaning that they are made in the UK of material from well-managed, FSC®-certified forests and other controlled sources.

Tiles, its time to move on.

Hydrolock®

Multipanel panels are available with Hydrolock® tongue and grooved edge for easy click-into-place installation.

Hydrolock Installation

To ensure our panels can be installed to show off their true potential, we created Hydrolock, a unique solution which makes it possible to join panels from our collections (Naturepanel, Tile, Pure, Linda Barker and Contemporary) together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for profiles and can even be installed on uneven walls. Hydrolock panels are available in a range of widths for ease of installation – 2400 x 598 mm, 2400 x 900 mm, 2400 x 1200 mm.

The Hydrolock joint reduces the finished face by 20mm i.e. 2400mm x 1200mm becomes 2400 x 1180mm. Straight edge panels are also available.

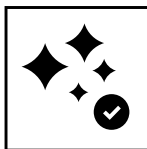

Hydrolock® Joint

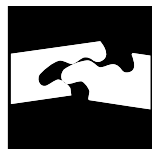

Scan the QR code and watch a video to learn more about Hydrolock installation and its benefits.

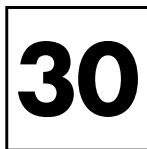

Why Choose Grant Westfield

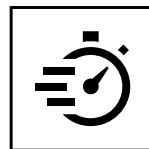

Easy to keep clean

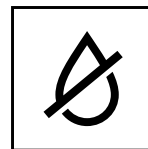

Almost seamless joint with Hydrolock®

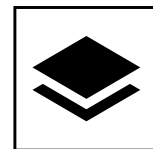

30 year warranty

Quick and easy to install

Fully waterproof

Can be installed over old tiles

Multipanel Profiles

	Matt Black	Bright Silver	Satin Silver	White /Black

on Perform Panel Wall Panels

Cloudy Marble, The Origins Collection

About Perform Panel – Today's alternative to tiles

With easy installation, no grouting and a unique high-performance fitting system, Perform Panel is the beautiful, efficient, modern alternative to tiles. Available in a large selection of stylish designs across our core ranges. Perform Panel works with any interior scheme. Made in the UK by a family firm trusted by the building industry for 160 years.

Nu-Lock Joint

Nu-Lock

Manufactured using 7-ply birch plywood, with a "click" tongue and groove finish as standard, creating a seamless joint and look to each panel.

Perform Panel Trims

Seal and finish wall panel edges and joints with a range of trims, available in a variety of finishes including satin anodised aluminium, white, chrome, black, brushed black, and brushed brass.

Years **25**
on Fibo Wall Panels

About Us

Designed and manufactured in Norway - the home of wood technology and contemporary Scandinavian styling – Fibo is the leading supplier of tile-effect wall panels. Starting out quite modestly in 1952 with a small factory, today we operate a multi-million pound award-winning factory producing panels for over 100,000 bathrooms a year.

Tried and tested in Norway for almost 70 years, Fibo was the first to make the 'click' system for walls. The smooth and strong surface can withstand both direct water spray and large temperature fluctuations. Quick to dry, easy to clean, and simple to install. You are guaranteed a result that will last for many years.

Did you know?

Research has revealed that Fibo's leading waterproof wall panel system has a carbon footprint that is 37% lower than tiles when installed in a typical bathroom. This is in part due to Fibo sourcing their plywood from sustainable PEFC certified sources. So, when you choose Fibo wall panels you can be confident that you're choosing the greener option and reducing your carbon impact. Plus, Fibo wall panel surfaces are all antibacterial so there's no more cleaning mould and worrying about bacteria growing between tiles anymore. Why tile, when you can Fibo?
